1.6 ASSUMPTIONS, DEPARTURES AND RESERVATIONS

This Valuation Report has been prepared on the basis of the assumptions within the instructions (Key Assumptions, Qualifications, Limitations and Disclosures) detailed after this section of this report. The development mix, built up area, land area and lease details such as lease rent, lease commencement and lease end date, lock-in period, escalation terms, etc. pertaining to the Project is based on the appropriate relevant documents, which has been provided by the Client and the same has been adopted for the purpose of this valuation. The total developable/developed area, leasable area, site/plot area considered for this valuation exercise is based on the Architect's Certificate shared by the Client and the same has been checked against the approvals/layout plans/building plans provided by the Client. However, no additional verification and physical measurement for the purpose of this valuation exercise has been undertaken.

1.7 GENERAL COMMENT

A valuation is an estimation of price, not a guarantee. By necessity, it requires the Valuer to make subjective judgments that, even if logical and appropriate, may differ from those made by a purchaser, or another valuer. Historically it has been considered that valuers may properly conclude within a range of possible values.

The purpose of the valuation does not alter the approach to the valuation.

Property values can change substantially, even over short periods of time, and thus the valuation of the Project herein could differ significantly if the date of valuation was to change.

This report should not be relied upon for any other purpose other than for which this valuation exercise has been undertaken for.

1.8 CONFIDENTIALITY

The contents of this Valuation Report are intended for the specific purpose stated. Consequently, and in accordance with current practice, no responsibility is accepted to any other party in respect of the whole or any part of its contents- except as maybe required in connection with the disclosure of valuation of assets, forming part of the portfolio of Mindspace REIT, under the applicable law.

1.9 AUTHORITY

The Client acknowledges and agrees that the valuation exercise undertaken (including, without limitation, the Reports itself and the contents thereof) is solely for the purpose set out in Section 1.2 herein. If Client desires to use the Report in any offering or other investment material for purpose other than as mentioned in the Section 1.2 herein, then (a) with Valuer

will require, and the Client must provide or cause to be provided, an indemnification agreement in his favor, given by parties reasonably satisfactory to him, and (b) the Client will obtain his consent to the references in such materials to the Report.

1.10 LIMITATION OF LIABILITY

The Valuer has provided the services exercising due care and skill but does not accept any legal liability arising from negligence or otherwise to any person in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the properties. Further, the Valuer shall not accept liability for any errors, misstatements, omissions in the report caused due to false, misleading or incomplete information or documentation provided to him by the Instructing Party.

The Valuer's maximum aggregate liability for claims arising out of or in connection with the Valuation, under this engagement shall not exceed the professional indemnity insurance obtained by him. As on the date of this report, the professional indemnity insurance maintained by the Valuer is for Indian Rupees Fifty Million.

In the event that the Manager, the sponsors, the trustee, the REIT, or other intermediaries appointed by the Manager and / or REIT or its SPVs be subject to any claim ('Claim Parties') in connection with, arising out of or attributable to the Report, the Claim Parties will be entitled to require the Valuer to be a necessary party/respondent to such claim and he shall not object to his inclusion as a necessary party/ respondent. In all such cases, the Manager, on behalf of the REIT, agrees to reimburse/ refund to the Valuer, the actual cost (which shall include legal fees and external counsel's fee) incurred by them while becoming a necessary party/respondent. If the Valuer does not cooperate to be named as a party/respondent to such claims in providing adequate/successful defense in defending such claims, the Claim Parties jointly or severally will be entitled to initiate a separate claim against the Valuer in this regard.

The Valuer will neither be responsible for any legal due diligence, title search, zoning check, and physical measurements nor undertake any verification/ validation of the zoning regulations/ development controls with any government departments/authorities, among other aspects etc.

1.11 DISCLOSURE AND PUBLICATION

The Valuer must not disclose the contents of this Valuation Report to a third party in any way, except as allowed under the Securities Exchange Board of India (Real Estate Investment Trust) Regulations, 2014 along with SEBI (Real Estate Investment Trusts) (Amendment) Regulations 2016 and subsequent amendments and circulars. As per the terms and regulation 2(1) of the Securities Exchange Board of India (Real Estate Investment Trust) Regulations, 2014 along with SEBI (Real Estate Investment Trusts) (Amendment) Regulations 2016 and subsequent amendments and circulars, it may be noted that the Valuation report is prepared in accordance with said REIT regulations.

1.12 ANTI-BRIBERY AND ANTI-CORRUPTION

The Valuer represents, warrants and undertakes that:

The Valuer is familiar with applicable Anti-Corruption Laws under this Agreement including but not limited to Prevention of Corruption Act 1988 and will ensure that neither it nor any of its officers, directors, shareholders, employees and agents or any other person acting under its implied or express authority will engage in any activity, practice or conduct which would constitute an offence under, or expose or potentially expose either Party to any direct or indirect liability, under Applicable Anti-Corruption Laws;

It is further agreed that breach of any of the above undertakings shall be deemed to be a material breach of the Agreement and in case the Valuer is insisted upon or asserted by Client to violate any of the above said undertakings including Anti-Corruption regulations in any form or manner, on pretext of business relationship or otherwise, the Valuer shall have a discretionary right to terminate this Agreement without any liability or obligation on his part.

Such termination of this Agreement shall not in any way prejudice the rights and obligations (including payment for the services delivered under this Agreement) already accrued to the Valuer, prior to such termination.

KEY ASSUMPTIONS, QUALIFICATIONS, LIMITATIONS AND DISCLAIMERS

1.	Type of Estimate	The scope of the assignment covers only estimating Market Value of a specified property and not a business valuation for either the Client or any of their subsidiaries or associated companies, etc. The estimate is based on extent of data/information provided by the Client and estimate has limited coverage wherever full data/information is not made available by the Client.
2.	Legal Due-Diligence	Legal due diligence for establishing clarity of title, ownership, encumbrances if any, notices or disputes if any, among other legal-related issues are not part of scope of work for this assignment. In all likelihood, an independent legal agency would be covering this aspect, details of which can be obtained from the Client.
3.	Information Provided by the Client and Others	The Valuer has relied on the information provided by the Client and the same has been assumed to be correct and has been used in the valuation. Where it is stated that another party has supplied information to the Valuer, this information is believed to be reliable. The Valuer cannot accept any responsibility for accuracy and non-reliability of such information.
4.	Regulatory Due-Diligence	Regulatory due diligence is not part of scope of work for this assignment. In all likelihood, an independent legal agency would be covering this aspect, details of which can be obtained from the Client.
5.	Project Status, Schedule and Project Costing	Assessment of the Project Status and Schedule is based on the information provided by the Client and does not consider any unforeseeable developments which could impact the same in the future. The estimate does account for any capital expenses incurred by the Client on the existing and/or ongoing development works in the Project. Auditing the project figures is not part of the scope of work under this assignment. In all likelihood, an independent auditing agency would be covering this aspect, details of which can be obtained from the Client.
6.	Market Conditions and Trends	The Valuer has taken into consideration the general conditions in the market with respect to broad demand and supply while carrying out the valuation. The Valuer has compared other comparable properties on the basis of many factors and as far as possible tried to remove / account for the differences in type, location and quality of the properties.
7.	Information on Leases, Sales Performance, and movable and immovable assets	The Valuer has relied on the rent roll including lease terms & conditions of the existing and pre-committed leases, and land area, built up area, and plant and machinery as given by the Client. The Valuer has not verified individual lease agreements and the Valuer has relied on all information provided to him by the Client, upon which the Valuer will rely, is complete and correct. The Valuer has relied on pre-leasing details to the extent data/information made available by the Client.
8.	Site Investigations and Illustrations	The Valuer has carried out the site visits and based on the information made available by the Client and the estimate is carried out considering that the Project Site is a contiguous land parcel and is free from any encroachments and encumbrances as on the date of valuation. The Valuer has not carried out any structural survey nor tested the building services. No geographical or geo-physical survey was carried out. No environmental assessment has been carried out. Any sketch, plan or map in the report is included to assist reader while visualizing the Project and assume no responsibility in connection with such matters. The date of site visit has been mentioned in the respective detailed valuation report.
9.	Project Cost Estimates	Project Cost Estimates used in the estimate is as given by the Client. Project progress including capital expenditure progress reported is based on the cost incurred data as shared by the Client. The Valuer has reviewed the Project Cost estimates and/or cost incurred data to broadly ascertain their correctness on a normative basis while relying on the same as shared by the Client.

10. Environmental Compliance	The Valuer assumed that the Project Site / Project is not contaminated and is not adversely affected by any existing or proposed environmental law and any processes which are carried out on the Project Site are regulated by environmental legislation and are Project Site licensed by the appropriate authorities.
11. Present Ground Conditions	In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present, which might adversely affect the current or future occupation, development of the Project. The estimate assumes that the Project Site is free from rot, infestation, structural or latent defect and no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the property and comments made in the property details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts.
12. Town Planning and Statutory Considerations	The Valuer has not made formal search but has generally relied on readily available information to general public. Valuation Report is on current use/ current state basis of the property and the Valuer has not considered any Government proposals for road widening or compulsory purchase/ acquisition, or any other statute in force that might affect the Project.
13. Future Market Development and Prospects	The Valuer has not accounted any future market development and prospects to the extent information known to the Valuer as on the date of valuation. The Valuer does not warrant that such statements are accurate or correct.
14. Option or Pre-emption Rights and Encumbrances	The projects can have some encumbrances created in favor of the lenders in ordinary course of the business. Unless disclosed and recorded by the Client, the Projects are considered to possess good and marketable titles and are free from any unusually onerous encumbrances with no option or preemption rights in relation to the assets, based on the information given in the Title Reports prepared by Saraf and Partners (hereinafter collectively referred to as 'Legal Counsel'). The Valuer has not checked and verified the title of the Projects.
15. Disclaimer	<p>The estimate of Market Value is based on documents/information shared by the Client. The Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Project.</p> <p>The Valuer has relied on the measurements and information provided at all times, whether from public and private sources, and has ensured to the best of their ability the correctness and the validity of the same, by cross checking from various sources. Whilst every effort has been taken to provide authentic data and analysis, the Valuer, and/or any of their associated companies and/or their employees are not responsible for any loss, major or minor incurred on the basis of the information and analyses provided, nor are liable to any damages in any form or shape.</p> <p>Given the confidential nature of real estate transactions, transaction details for most properties, which are privately actually transacted, are not in the public domain. Consequently, there is reliance on information from market sources, which may not be completely accurate. Thus, information has been crosschecked independently from other market sources to ascertain the broad credibility of information being provided by the market sources. This assignment has been done on best effort and knowledge basis.</p> <p>For ease and simplicity of representation, certain figures may have been rounded.</p>

2 VALUATION APPROACH AND METHODOLOGY

2.1 VALUATION STANDARDS ADOPTED

This Report is prepared in accordance and compliance with:

1. Securities and Exchange Board of India (Real Estate Investment Trusts) Regulations, 2014 as amended from time to time (“**SEBI Regulations 2014**”), including Regulation 21 Sub-Regulation (3) and mandatory minimum disclosures as specified in Schedule V of these SEBI Regulation 2014,
2. Companies (Registered Valuers and Valuation) Rules, 2017 as amended from time to time (“**Valuer Rules 2017**”), including reporting requirements as specified in Rule 18 to these rules,
3. International Valuation Standards 2022 (“**IVS 2022**”) as set out by International Valuation Standards Committee (“**IVSC**”) and adopted by Royal Institution of Chartered Surveyors (“**RICS**”) presented in the RICS Valuation Standards and Guidelines 2022 (“**RICS Red Book 2022**”), subject to variation to meet local established law, custom, practice, and market conditions.

2.2 BASIS OF VALUATION

Basis of valuation of the Project is **Market Value** as defined by IVSC and adopted by Royal Institution of Chartered Surveyors (RICS) to be: *“The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion”*.

2.3 APPROACH AND METHODOLOGY

The purpose of this valuation exercise is to estimate the Market Value of the Project, which is a real estate asset. Market Value of the real estate asset can be estimated using different approaches and methodologies.

Income Approach: Under this valuation approach, the income generating potential of the real estate asset is estimated while opining on its market value. This approach is typically adopted for assets that are income-generating (completed and operational with multiple tenancies, multiple strata units that can be sold with phased/milestone-based revenue collections, among others). For income-generating assets with single/multiple tenancies, the discounted cash flow entailing term and reversion method is most commonly adopted.

Market Approach: Under this valuation approach, the price that an asset could fetch in an open market is estimated. This approach is typically adopted for homogeneous assets in their micro-market and are typically traded on a unit basis. The most commonly adopted valuation method under this valuation approach is the Listed Transaction / Listed Quoted Instances Method, also commonly known as the Direct Comparison or the Comparable Sales/Quoted Instances Method.

Cost Approach: Under this valuation approach, the cost required to create an asset of similar or equal utility is estimated. This valuation approach is typically adopted for real estate assets that can be clearly broken down into constituent elements, namely land and built structures. The most commonly adopted valuation method under this valuation approach is the Physical Method, also commonly known as Land and Building Method, which typically entails estimation of the underlying land value (while normally adopting the Market Approach) and the built structures (while adopting the Depreciated Replacement Cost Method) separately.

Table 2.1: Different Valuation Methodologies and Description

Sl.	Valuation Methodology	Description
1.	Comparable Sales / Quoted Instances Method	This method is based on comparing the subject property directly with other comparable property transaction (actually been sold in the vicinity or are offered for sale). Efforts would be made to collect transacted instances. In case of non-availability of transacted instances in the micro-market, the opinion will be offered based on the available asking/quoted instances in the market with appropriate adjustments for margin for negotiation. Given the homogeneous nature of real estate properties, appropriate adjustments are usually required to allow for any qualitative and quantitative differences that may affect the price likely to be achieved by the property under consideration. These adjustments are typically made in the form of premium and/or discount factors for various property attributes, which affect the value. This method demonstrates what buyers have historically been willing to pay (and sellers willing to accept) for similar properties in an open and competitive market and is particularly useful in estimating the value of the land and properties that are typically traded on a unit basis. This method is a fair estimate of the prevailing prices.
2.	Depreciated Replacement Cost Method	Replacement cost method is based on the construction cost of assets. The cost to be estimated is the cost of construction as per the construction status at the valuation date. This is based on the inspection of the facility and inputs provided by the Client; however, no structural survey will be conducted. Appropriate depreciation rates will be applied based on schedules given under the Indian Companies Act. This is generally used for estimating the Market Value of buildings and plant and machinery.
3.	Discounted Cash Flow Method	This method is based on the present value of the future receivable net income from the current operational leases / revenues. The current revenues and the future achievable revenues derived from the operational project components of the Project Site would be adjusted for the outgoing expenses to derive 10-year cash flows. The same is then discounted at an appropriate discounting rate linked with risk adjusted discounting factor to estimate the market value for the operational project components. This method is sometimes referred to as 'Rent Roll method as well.

Approach and Methodology Adopted for Estimating Market Value of the Projects

Based on a detailed review of the leases for the Projects, with the exception of Project at Pocharam, the Valuer has noted that a large number of leases of the Projects were executed at rent prevalent at the time of signing of such leases or at a discount to prevailing market rental (for a few anchor tenants). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, demand-supply dynamics, quality of spaces, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some properties or submarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to estimate the intrinsic value of the property under review.

Considering the objective of this exercise and the nature of assets involved, completed & operational / under construction or future development office space, (other than certain land portions of future development portion which has been valued using Comparable Sales / Quoted Instances Method under 'Market Approach', power distribution services which has been valued using Discount Cash Flow Method under 'Income Approach', facility management services which has been valued using Discount Cash Flow Method under 'Income Approach', and Pocharam that has been valued considering the Cost Approach, as highlighted later in this section), the value is estimated using the 'Discounted Cash Flow Method' (basis term and rent reversion) under 'Income Approach'.

Specifically for the Project at Pocharam, the Valuer has noted that the existing buildings are vacant, and the earlier leases have expired. No demand has also been observed for this vacant space for quite some time, and in particular over the last six months since the previous valuation of this Project. Further, based on market research, Project micro market was observed to have no demand for office spaces. The Project micro-market also appears to be beginning to emerge as a residential destination with significant upcoming supply of residential strata units. In this scenario, given the guidance provided in various sections of International Valuation Standards 2022, the Valuer has adopted the Cost Approach to valuation of this Project at Pocharam. Under the Cost Approach, the land component has been valued considering the Comparable Sales/Quoted Instances Method under the Market Approach and building and plant & machinery components have been valued considering the Depreciated Replacement Cost Method. Details of this change in valuation approach since the previous valuation are provided in the main report for the Project at Pocharam and at a subsequent section in this report.

2.4 ADOPTED PROCEDURE

The market practice in most commercial/ office developments involves contracting tenants / occupiers in the form of pre-commitments at sub-market rent to increase attractiveness of the property to prospective tenants - typically extended to anchor tenants. Additionally, there are instances of tenants paying above-market rent for certain properties as well (primarily owing to market conditions at the time of contracting the lease). In order to arrive at a unit value for these tenancies, the Valuer has considered the impact of such sub/above market rents on the valuation of the Project.

For the purpose of this valuation exercise, the Valuer has analyzed the tenancy details provided by the Client, to identify variances vis-à-vis prevailing market/marginal rent. Each lease is assessed separately for below aspects, for the rent over a 10-year time horizon:

- The rent rolls (and the corresponding lease deeds on a sample basis) were reviewed to identify tenancy characteristics for the asset. As part of the rent roll review, major tenancy agreements belonging to top tenants were reviewed on a sample basis.
- Title certificates, architect certificates and other related documents as mentioned in relevant sections of the report were reviewed for validation of area details, ownership interests of the Project.
- Physical site inspections were undertaken to assess the status of the Project.

Cash Flow Projections

The cash flows for the Project has been projected separately for each lease, to arrive at their respective value estimates.

Net Operating Income (NOI) has primarily been used to arrive at the value of the Project. The projected future cash flows from the Project are based on existing lease terms for the operational leases till the expiry of the leases or re-negotiation, whichever is earlier, following which, the lease terms have been aligned with market rents achievable by the Project.

For vacant area and under-construction/future development area, the achievable market rent-led cash flows are projected factoring appropriate lease-up timeframe for vacant/under-construction/future development area. These cash flows have been projected for 10-year duration from the date of valuation and for 11th year (for estimate of terminal value based on NOI). These future cash flows are then discounted to present-day value (valuation date) at an appropriate discount rate. Each lease is assessed separately for below aspects, for the rent over a 10-year time horizon.

- Projecting the rental income for identified tenancies up to the period of lease expiry, lock-in expiry, escalation milestones, etc. whichever is applicable. In the event of unleased spaces, market-led rent is adopted with suitable lease-up time.

- Generating a market led rental income stream for identified tenancies for the time period similar to the cash flows drawn in the aforementioned step.
- Computing the monthly income based on rent projected above and translating the same to quarterly income (for the next 10 years and 11th year is considered for calculation of terminal value).

Further, to arrive at the total value of the leased spaces (from base rentals), appropriate revenues and operational expenses are projected on quarterly basis. Some of such adjustments on revenue and operational expenses are presented in the table below:

Table 2.2: Adjustments on Revenues and Operational Expenses

Parameters	Description / Basis
Parking Income	Based on income inputs provided by Client for the leased spaces and market assumption taken for vacant spaces
Miscellaneous Income	Based on income inputs provided by Client for the Project
Insurance	Based on insurance outflow (if any) provided by Client
Annual Lease Rental / Property Taxes	Based on annual lease rental / property tax assessed for the Project as provided by Client
Asset Management Fee	Considered as a recurring expense (in case of an external management team) as a percentage of the lease rental income as per the agreement between respective assets and its asset manager.
Margin on CAM	Based on the operational revenues and expenses of the respective assets to understand the recurring, non-recurring, recoverable and non-recoverable expenses and accordingly modelled the common area maintenance income and operational expenses for the asset.
Revenue Escalation	Based on market-led annual escalation on the market rent
Rent Free Period	Based on the trend prevalent in the submarket, appropriate rent free periods from lease commencement date (for future / new leases) are considered
Brokerage	Based on prevalent market dynamics, brokerage for future / new leases are considered
Fit-Out Income	Based on fit-out rent (if any) provided by Client till lease expiry of applicable leases (same is not capitalized)
Transaction Cost on Exit	Considered as a percentage of the terminal value after aforesaid adjustments

3 VALUATION SUMMARY

Valuation of land for future development – 1.79 acres

Project has 1.79 acres of land for future development located at the entrance gate. Further it is forming part of the larger IT park and designated for IT/ITES development. We note the update on the litigation on the said plot.

However, as there are no concrete development plans on the said plot at present, and the update on writ petition is only recent, we continue to estimate the value of the land using government benchmarked price. We may potentially re-look at approach during the subsequent valuation exercise depending on the progress.

4.2.5 MARKET VALUE

We are of opinion that the Market Value of the Project Mindspace Madhapur (KRIT) located in Madhapur, Hyderabad Telangana, India 500081 as on 30 September 2024 is estimated to be:

- **For Completed Project - INR22,258.84million (INR Twenty Two Billion Two Hundred Fifty Eight Million Eight Hundred Forty Thousand Only)**
- **For Under construction, Future development, and land Projects - INR13,862.56million (INR Thirteen Billion Eight Hundred Sixty Two Million Five Hundred Sixty Thousand Only)**

Note: Based on the inputs provided by client, Mindspace REIT holds 89% of the ownership interest in the project and the valuation presented is for 89% interest in the project only. The total value of the asset with 100% interest is **INR 40,585.83 million (INR Forty Billion Five Hundred Eighty Five Million Eight Hundred Thirty Thousand Only).**

4.4.5 POWER DISTRIBUTION SERVICES

In accordance with Section 14 (b) of the Electricity Act, 2003 read with Section 4(1) of the SEZ Act, 2005, entities that own and operate SEZ Parks are considered Deemed Distribution Licensee for supplying electricity to consumers within the SEZ area. Pursuant to the above regulations, MBPPL also has the license to distribute power within the Subject Property.

The SPV has invested in the infrastructure to facilitate the distribution of the power to the customers (occupiers and operators within the subject properties). It procures power from Power generators supplying to the grid and then distribute it to the end consumers within the Project Site. The SPV is not allowed to expand the power distribution outside the limits of the SEZ, i.e., the Project Site in this case.

4.4.6 ADOPTED METHODOLOGY FOR POWER DISTRIBUTION SERVICES

Referring to the commission's latest order for the operational facility, the cash flows from the power distribution services are projected in the following manner:

- Amount of approved Gross Fixed Assets ("GFA") is considered
- Further, Net Fixed Asset (NFA) which is GFA reduced by accumulated depreciation allowed as on date is computed.
- To compute the Net Cashflows, mainly return on equity, interest on notational debt, recovery of depreciation, interest on working capital have been added.
- Licensee is allowed to charge 14% return on equity which is 30% of GFA. In case of no actual loan, the commission allows a return on normative loan equal to 70% of GFA

based on MYT regulations 2019. SLM (Straight Line Method) is considered for depreciation, as per the average rate approved by the commission. Depreciation is considered to the extent of 90% of the GFA.

- Approved power procurement, operational and maintenance expenses are allowed completely pass through.

4.9.5 POWER DISTRIBUTION SERVICES

In accordance with Section 14 (b) of the Electricity Act, 2003 read with Section 4(1) of the SEZ Act, 2005, entities that own and operate SEZ Parks are considered Deemed Distribution Licensee for supplying electricity to consumers within the SEZ area. Pursuant to the above regulations, KRC Infrastructure and Projects Private Limited also has the license to distribute power within the Project Site.

The SPV has invested in the infrastructure to facilitate the distribution of the power to the customers (occupiers and operators within the subject properties). It procures power from Power generators supplying to the grid and then distribute it to the end consumers within the Project Site . The SPV is not allowed to expand the power distribution outside the limits of the SEZ, i.e., the Project Site in this case.

4.9.6 ADOPTED METHODOLOGY FOR POWER DISTRIBUTION SERVICES

Referring to the commission's latest order for the operational facility, the cash flows from the power distribution services are projected in the following manner:

Amount of approved Gross Fixed Assets ("GFA") is considered.

Further, Net Fixed Asset (NFA) which is GFA reduced by accumulated depreciation allowed as on date is computed.

To compute the Net Cashflows, mainly return on equity, interest on notational debt, recovery of depreciation, interest on working capital have been added.

- Licensee is allowed to charge 14% return on equity which is 30% of GFA. In case of no actual loan, the commission allows a return on normative loan equal to 70% of GFA based on MYT regulations 2019. SLM (Straight Line Method) is considered for depreciation, as per the average rate approved by the commission. Depreciation is considered to the extent of 90% of the GFA.
- Approved power procurement, operational and maintenance expenses are allowed completely pass through.

4.9.7 KEY ASSUMPTIONS AND INPUTS FOR POWER DISTRIBUTION SERVICES

Following are the key details as per the Commission order dated 31st March 2024:

Table 4.43 Key Assumptions Used for Power Distribution Services

Particulars	Unit	Figure
Gross Fixed Assets	INR Mn	323
Notional Equity (30% of GFA)	INR Mn	97
Notional Debt (70% of GFA)	INR Mn	226
Return on Equity	%	14%
Depreciation Rate	% Per annum	5.3%
License End Date	Date	18 June 2042
WACC	%	10.5%

4.9.8 FACILITIES MANAGEMENT SERVICES

KRC Infrastructure and Projects Private Limited has commenced facility management business effective October 1, 2020 to provide such services to the Subject Properties within the portfolio as well as properties with ownership interests of/owned by third parties within the same parks as the Subject Properties of the Portfolio (as mentioned in the following table). Facility management services include housekeeping services, management of MEP equipment, façade cleaning, security expenses, repair and maintenance, maintenance of common areas etc. Service charges are levied on a cost-plus mark-up basis to the SPVs owned by REIT, which has ownership interest in the Subject Properties.

The facilities management services business shall operate under the brand name CAMPLUS and shall manage the existing operational buildings / area in the Portfolio. In addition, area under-construction/ future development shall also be managed by KRC Infrastructure and Projects Private Limited on completion.

4.9.9 KEY ASSUMPTIONS

Existing Operational Building which will be under facility management (including sold units and landowner areas)	Existing Operational Building which will be under facility management	Total area of ~29.6 million sq ft. as at (30 September 2024) Mix of SEZ and non SEZ building.	The revenue of facility management is linked to the expense for such facility plus mark up, the growth in the revenues from existing tenants are in line with the inflation expectation of 5%.
Expansion in Existing business and Buildings under construction (including landowner areas)	Expansion in Existing business and Buildings under construction	Total area of ~7.4 million sq ft.	For future development/proposed buildings, revenue and margins of existing properties is considered as a base to compute the projected cash flows of new buildings. Growth in revenue is linked to the improvement in occupancy plus 5% revenue growth from existing tenants. Initially those buildings are likely to have lower margins due to lesser occupancy.

For the purpose of arriving at terminal year income multiple, Indian and International comparable companies listed on various stock exchanges were studied. It was observed that International companies with primary business of facility/property management trade at 10 - 13 times EV/EBITDA multiple. However, there are very limited comparable facility management listed companies. There is only listed comparable company, which offers facility management services in India including security services, cash logistic etc. Given the fact that facility/property management business is limited to Subject Properties within the portfolio as well as properties with ownership interests of/owned by third parties within the same parks as the Subject Properties of the portfolio, we have considered the EV/EBITDA multiple of 13x to compute the exit value post 10 years of cashflows. For the purpose of discounting the future cash flows, a Weighted Average Cost of Capital (WACC) of 11.75% has been used.

4.9.10 MARKET VALUE

We are of opinion that the Market Value of the Project Gera Commerzone SEZ and IT Park located in Kharadi, Pune, Maharashtra, India, as on 30 September 2024, is estimated to be:

- **For Completed Project - INR24,174.22million (INR Twenty Four Billion One Hundred Seventy Four Million Two Hundred Twenty Thousand Only)**
- **For Under construction, Future development - INR7,793.45million (INR Seven Billion Seven Hundred Ninety Three Million Four Hundred Fifty Thousand Only)**
- **For Power Distribution under KRC Infrastructure and Projects Private Limited, Maharashtra, India - INR305.01million (INR Three Hundred Five Million Ten Thousand Only)**
- **CAMPLUS – Completed - INR6,631.34million (INR Six Billion Six Hundred Thirty One Million Three Hundred Forty Thousand Only)**
- **CAMPLUS – Under construction - INR1,156.50million (INR One Billion One Hundred Fifty Six Million Five Hundred Thousand Only)**

*Note: Based on the inputs provided by client, Mindspace REIT holds 100% of the ownership interest in the project. The total value of the asset with 100% interest is **INR40,060.68million** (INR Forty Billion Sixty Million Six Hundred Eighty Thousand Only)*

4.11.3 LOCATION OF THE PROJECT

The Project is located at Porur which is classified as SBD Southwest office market of Chennai. It is well accessed by 30m wide Mount Poonamallee Road on the Southern Side. Porur Junction and Kathipara Junction are located approx. 2kms and 5kms from the Project respectively which are the major interchange junctions to various parts of the city. Chennai International Airport is just 9kms from Project. The upcoming metro corridor 4, which would connect lighthouse to Poonamallee Bus Depot, would have a station at Porur Junction. This would strengthen the connectivity and accessibility along MPR as well as to the Project. The Phase 2 Metro is estimated to be completed by 2026. There are many IT/ITes developments located along Mount Poonamallee Road and the larger development being DLF Cybercity located at a distance of ~1km from Project.

4.12.1 DETAILS OF THE PROJECT SITE AND / OR PROJECT

The table below presents details of the Project Site and/or Project.

Table 4.52: Details of the Project Site and/or Project

DETAILS OF PROPERTY		
Property Name	Mindspace Pocharam, Hyderabad – SEZ	
Property Address	Mindspace, TSIC software layout, Hyderabad, Telangana, 500088	
Land Area	26.464 Acres	
Block-Wise Break-Up of Leasable Area and Current Status	Leasable area details as shared by the Client is given below:	
	Sr. No.	Building Name
		Leasable Area (mn. sq. ft.)
	1.	Building 8
	2.	Building 9
	Total Leasable Area	0.57
	Based on the site inspection, the Project has two buildings and ~ 19 acre of land for future development.	
	Subject Property has undergone significant changes over the last six months with the existing tenant(s) having moved out of the property. Both leasable buildings in the Subject Property are currently vacant and considerable challenges have been observed over these last six months in leasing this Subject Property. Further, recent market feedback indicates that Subject Property micro-market is no longer being considered as an active destination for IT/ITeS spaces. The IT/ITeS activity in the city has been largely concentrated in the western quadrant and there is no immediate visibility of demand in the eastern quadrant. Given these constraints, the approach to valuation of Subject Property has been changed, in line with guidance provided under International Valuation Standards 2022, to Cost Approach from Income Approach considered previously, as there is currently no direct evidence of rent and no other identifiable income streams and does not appear likely in the near foreseeable future from the Subject Property. The land component has been valued while considering the Comparable Sales Method (under the Market Approach), and built component and plant and machinery components have been valued considering the Depreciated Replacement Cost Method.	
Access	Accessible through approx. 24 m. wide internal road	
Frontage	Excellent frontage along the access road	
Shape and Visibility	Regular in shape and has excellent visibility from access road	
Approval Status	Project has requisite approvals in place as confirmed by the Client	
INFRASTRUCTURE		
Water Supply, Sewerage & Drainage	Available within the Project
